To Whom It May Concern:

I have been associated with Truckstop Ministries since 1987 and I have seen the Lord bless it and spread the word of Jesus Christ to thousands of truck drivers.

My company is a monthly supporter of Truckstop Ministries and I am also a board member and I can assure you that the contributions are spent in a most worthy manner. The most pressing problem that we are facing today is the lack of monthly contributors that will share the burden that we have and that is to spread the gospel to an industry that is in dire need of Jesus Christ. As you are aware, our industry has lost its recognition as "Knights on the road" and has since been bombarded with drugs, alcohol and every other kind of scheme that Satan can throw at us. Our industry's recognition now is one of big trucks and trailers speeding down the interstate with drivers that are under the influence of drugs or alcohol and talking on the C.B. radio using profanity. The best and most lasting way that this can be changed is through a life changing effort upon the drivers and this can only be accomplished by the saving power of Jesus Christ.

We are being asked continually by truckstops throughout the United States to come into the truckstop and set up a chapel, but we can only do this by having more monthly supporters.

We need your help. Would you please pray about it and if the Lord leads you, please obey Him and join us and you will share in reaching thousands of drivers for Jesus.

Sincerely,

David R. Parker
President
